

INFRASTRUCTURE
A GAMUDA Company

Your partner in Defence

dtinfrastructure.com.au

Background

DT Infrastructure has the expertise and experience to deliver on the unique challenges of the Defence Estate. We act as a key enabler to unlock Australia's Defence Force capability for the defence of Australia and its national interests. Our key focus is delivering fit-for-purpose infrastructure that maximises value for money while achieving the most practical and viable capability outcomes for Defence facilities and infrastructure.

With a national presence and capacity to deliver projects up to \$1 billion, DTI has experience operating across all contracting models including design and construct, construct-only, Managing Contractor, Head Contractor, Alliances and Joint Ventures, and Public Private Partnerships (PPPs).

Through engineering innovation, collaborative contracting, and leading sustainability practices, DTI is unlocking opportunities for a better tomorrow.

Priorities

Sovereignty

Acknowledging the importance of delivering projects that protect and secure Australia and the ADF's geo-strategic position.

Safety

We are first and foremost driven by a culture that places safety as our first priority. Driven by continuously improving our safety systems and practices to protect our people and worksites.

Quality

Executing our work to the highest possible standards ensuring longevity in the assets we build, maintain and upgrade.

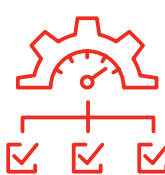

Security

We are compliant with government requirements for sovereignty and protection of Australian information. We have the Cyber security architecture and infrastructure to be the trusted partner for Defence.

Innovation

Deploying the latest practices and technologies to truly future-proof our projects and creative solutions that provide best value for money.

Certainty in delivery

Focused on speed to delivery and minimum viable capability, underpinned by our commitment to deliver quality infrastructure.

Capabilities

We recognise that effective project management is critical to enabling Defence to achieve its strategic objectives, with a focus on:

Sustainability

Implementing sustainable construction practices at every opportunity.

EPBC expertise

Adhering to the strictest environmental and bio security measures on our projects.

Airfields and pavements

Expertise in delivering high-quality road and pavement works to provide enduring airfield runways and taxiways.

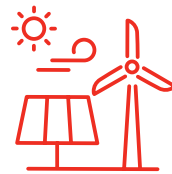

Engineering excellence

Our in-house engineering expertise provides quality design and delivery on our projects.

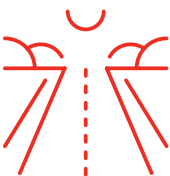

Facilities infrastructure

Design and construction experience delivering multipurpose infrastructure and maintenance facilities.

Renewable energy

Partner of choice to deliver utility scale solar and wind farms, including Battery Energy Storage Systems, in Australia with behind the meter capabilities.

Remote working

Redeployment of our resources and managing logistics in remote areas.

Northern Australia

Experience working across the remote regions of Northern Australia, including established partnerships with local talent and industries.

Our people

Veteran employment

We proudly facilitate pathways and policies to engage ex-serving members to join our team. We recognise the unique perspectives and experience they bring to the organisation, with a deep appreciation of Defence's strategic priorities.

Ready to mobilise

Our workforce stretches from the heart of our major cities, all the way to the most remote parts of Australia. Our blue- and white-collar teams are ready to be deployed at short notice with the ability to scale up or down to meet the fluctuating deliverables on our projects.
